

## MERRILLVILLE

Mr. Wm. Nisch of Chicago, an old timer, visited his sisters here and their families. Mrs. Lillie Pierce and Mrs. Louise Walters, last Wednesday.

The fishermen returned from Michigan, last Tuesday. We didn't see any fish or even smell any cooking. We are a little doubtful.

The Parent-Teachers' meeting was well attended, considering the stormy night. In the absence of the president, Mrs. Moore acted as President. The community singing was good, all on account of the new wakening books. Mrs. Eason had charge of the singing. There were several on the program absent but the Argo orchestra gave three numbers. Merrillville is truly fortunate to have such talent in our community. Blanch Kuehl and James Langen played the violin and Lillian Kuehl played the piano. Mrs. Moore read a fine paper on the High Cost of Living, followed by a discussion. The debaters were all absent but one, so the debate will be carried over to the next meeting, the second Tuesday in August. Mr. Wm. G. Woods was appointed chairman of the program committee. The young girls sang the good-night number and all felt that the meeting was a success regardless of the weather.

The Epworth League cabinet met at the Pierce home last Wednesday evening and voted to give twenty dollars to the improvement fund at Battle Ground next year, and made arrangements for a social in the near future. Mr. and Mrs. M. H. Pierce received word from California that their son Milton, who has been in a hospital for some time, that he had been sent to a specialist. He has had several

specialists before take blood and skin tests and they seem to think it is tubercular trouble. Mr. and Mrs. Pierce will leave for California next week.

TRY A "TIMES WANT AD"

Problem of Ancient History.

Another thing we never could understand was why the old-fashioned man who had snakes in his boots staggered more than he jumped.—Dallas News.

## PESKY BED BUGS

Bedbugs lay an average of seven eggs per day. Under favorable conditions they hatch in five days of which two-thirds are females. They mature to adult size and are capable of laying in four weeks. How many bedbugs would you have in a year if you left one female or size unmolested for one year? To rid the pesky bedbug, you can readily see how necessary it is to use a preparation that will kill the eggs as well as the live ones. P. D. Q. has been demonstrated by the leading Hospitals, Hotels and Railroad Companies that the safest and most economical way to stop future generations of bedbugs, roaches, fleas and ants is to use the new dis-

infectant, Pesky Devil Quinine "P. D. Q." A 25c package of P. D. Q. makes a quart, enough to kill a million bedbugs, roaches, fleas and beetles and at the same time destroy their eggs. Impossible for them to exist when P. D. Q. is properly used. Free, patient spot in every package to get the pesky devil in the hard-to-get-at places and save the price. Special Hospital and Hotel size \$2.50—makes five gallons of P. D. Q.—your druggist has it or can get it for you, or sent prepaid upon receipt of price by the Owl Chemical Co., Terre Haute, Ind. Success of P. D. Q. has caused imitations. Genuine P. D. Q. is never peddled.—Adv.

## Woods, Martin & Co. Offer For Sale Three Homes of Distinction in Kenwood

These houses have been built by Charles S. Rhoads, master builder, who works by inspiration and has incorporated in these compact, harmonious and structurally sturdy bungalows so many practical features, so many modern devices that only a personal inspection will convince the prospective purchaser that at last he has found the house he has been looking for.

### New Ideas in Home Building

#### ATTACHED GARAGES—

THE DAY OF THE DETACHED GARAGE IS PAST. The garage must be a part of the house. The bungalows pictured here are built between FOREST AVENUE and the STATE LINE. No long ugly stretch of concrete leads from the front to the rear of the lot. The garage is approached from State Line Street. On stormy days you drive into the garage and go directly into the main part of the house without going outside. Deliveries of coal are made by backing a truck into the garage and putting coal directly into the bin. Garage is heated by the same heating plant that serves for the house. No bother with heaters and cold engines.

#### GENERAL CONSTRUCTION—

These bungalows are built on cement blocks lined with brick. The brick houses are lined with TILE making the coolest house in summer and warmest in winter. KENWOOD sewers are deepest in Hammond, hence basements are dry. Carpenter work is the best in Hammond and RHOADS' FLOORS are masterpieces in oak. Bath rooms have tiled floors and the best plumbing obtainable. Electric wiring is in conduits with a generous number of extra outlets. Plaster work is perfect, insuring good walls for decorating. Down spouts connected with sewers.

#### EXTRA FEATURES—

LIVING ROOMS ARE UNUSUALLY LARGE and have a splendid fire place, flanked on both sides with spacious book cases. Dining rooms are also of generous size and have built-in buffet if that is desired. Dining rooms are lighted with so many windows that they are almost equivalent to a sun parlor. KITCHENS are compact and convenient and have the EXTRA FEATURE of a built-in breakfast room. The rear entry way is made large enough to hold an ice box so that icemen need not go into house.

#### HOUSES COMPLETE—

THE BRICK HOUSES have spacious porches with concrete floors and steps and the up-keep of these most practical houses will be low. The proposition includes lawns graded and covered with black soil, attractive electric light fixtures, curtains and in fact everything that goes to make a complete modern home. NO LONG LIST OF EXTRAS AFTER YOU BUY AND MOVE IN.

#### GENERAL LOCATION—

KENWOOD, the subdivision in which these houses are located is the most beautiful residential district in the entire Calumet region. No house is built on less than 50 feet. Many places have 75 to 125 feet of frontage. Nowhere in HAMMOND are the lawns more beautiful or is more attention paid to planting of trees and shrubs. The STREET IMPROVEMENTS are the best in Hammond. DEEP SEWERS, CONCRETE PAVEMENTS TOP DRESSED WITH ASPHALT MACADAM, WIDE PARKWAYS PLANTED WITH ELMS, AND CONCRETE SIDEWALKS give something of an idea of the substantial character of the subdivision. These improvements could not be duplicated today for twice the original cost.

#### FOREST PRESERVE—

Close to these houses is the COOK COUNTY FOREST PRESERVE consisting of 130 acres of virgin forest. The purchase of this preserve was brought about by those interested in KENWOOD as a measure of protection for the general environment. It will in time be a great park through which will run winding roads and walks. This feature alone will be worth thousands of dollars to Kenwood purchasers.

#### TERMS OF PURCHASE—

THESE ATTRACTIVE HOMES may be bought for a remarkably low price and on terms that place them within the reach of the average buyer. CALL UP THE UNDER-SIGNED AGENTS FOR THE PROPERTY AND EVERY COURTESY WILL BE SHOWN PROSPECTIVE PURCHASERS. Make an appointment for a showing of these houses any time, week days or Sunday.
